## Claire's Cowl

**Sizes:** 1 (2) approx. 22 x 17 (21)"

Cowl seems very long and narrow, but pools around the neck when worn, becoming wider and shorter. The bottom edge has double the number of stitches to ensure that it is stretchy enough.

**Materials:**

4 (5) Prism Plumette

24" circular 4mm US #6 & 6mm US #10 needles

**Gauge:** 20 sts = 4" laid flat and unstretched

**Cowl:**

CO 220 sts.

K 2 tog across—110 sts.

Knit 1 row.

Join for circular knitting, taking care not to twist stitches.

Work either stockinette or optional rib pattern: K 8, p 2.

Work to approx. 17 (21)", or desired length, leaving approx. 4 yds for binding off.

BO all sts with large needle.

*Deep, plush softness—what could be more enticing to sink into? Whether you choose a fur color such as Mushroom, above, or Mink, lower left, or a shocking bright like Raspberry, below, this is quite a dramatic statement.*

*Very long to pool around your neck, 4 (above) or 5 (below) skeins knit up quickly for this on-trend look.*

*Best of all, no animals were hurt!*

*A wide bottom edge allows the cowl to become a capelet. Layer two in contrasting colors for even more impact!*
